

PATENT 83378.0001

the tube unit comprises:
an inner tube for circulating a liquid between the blood pump and the controller,
a cable including an electric wire connected to blood pump, and
an outer tube which accommodates the inner tube and the cable.

REMARKS

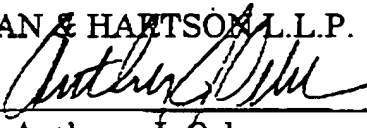

Claims 1-20 are presently in this application for consideration. The amendments are made to place the present application in better form and in condition for allowance. No new matter has been added. Entry and consideration of these amendments prior to the first Office Action are respectfully requested.

If there are any fees due in connection with the filing of this response, please charge the fees to our Deposit Account No. 50-1314.

Respectfully submitted,

HOGAN & HARTSON L.L.P.
